Learn More About...

Stop Doing Business With Strangers

A key strategy for debt recovery is not to incur the debt in the first place. For this objective, there are policies and procedures businesses should establish to reduce their past due receivables. It starts with securing the right documentation at the point of sale, or your "Terms of Business".

CFDD Mission Statement

The mission of the NACM Credit and Financial Development Division shall be to promote active interest in the credit and financial profession, to develop and market educational programs that are vital to the development of the effective professional, and to be a viable force within the NACM network.
